

# **KDC HEALTH**

# **COVID-19**

# **Vaccine Clinic**

**KDC HEALTH WILL BE CALLING** each household to schedule an appointment for all community members who wish to receive the vaccine.

This will be from either the KDC Health Number or a Cell Phone please answer the cell phone call.

This Clinic will be administering the **FIRST DOSE** of the vaccine only.

As is our traditional custom, KDC Health will take care of the Elders first.

To Ensure everyone's safety we will follow BC Provincial guidelines—no gathering—social distancing—wearing masks during the clinic.

The Cape Mudge Site clinics will run from  
March 08, 2021

We would request that members **NOT CALL** the office.

## **Things to remember after getting vaccinated:**

- Continue to follow Public Health recommendations: frequent handwashing, wearing a mask and staying at least 2 meters from other, to prevent the spread of COVID-19.**
- It will take about 2 weeks after getting the first dose of the vaccine to build immunity to the virus. If you are exposed to someone with COVID-19 infection during this time or shortly before getting the vaccine you can get sick with COVID –19.**
- Do not get any other vaccines until you have received both doses of the COVID-19 vaccine and at least 28 days have passed after the second dose.**
- Keep your immunization record in a safe place. You can also download the CANImmunize app to keep track of your COVID-19 vaccine and other vaccines.**
